Columbia, SC 29201

### Education or Qualifications

Associate of Science, Business Accounting, Kaplan University

### Specializations

Finance and Accounting

### Area of Expertise

As a Property Accountant, I am responsible for providing detailed financial reporting for commercial real estate holdings managed by Colliers | South Carolina. I also consult with property owners and investors on accounting matters to assist them in realizing the maximum value of their investments.

The most rewarding part of my job is meeting with new and existing clients to understand how I can help them meet their real estate needs. Clients and team members enjoy working with me as I am willing to listen to their needs, and I am hardworking, organized, detail-oriented, creative and a team player. At Colliers, we are successful if we create a lasting relationship with our clients to ensure that project deadlines are met and satisfactory.

### Professional Accomplishments

- South Carolina Notary
- Certified ScrumMaster®
- American Management Association® Women's Leadership Certification

### Business and educational background

I hold an Associate of Science degree in Business Accounting from Kaplan University.

I have a diverse accounting background in the restaurant, nonprofit and construction industries. In my most recent role, I was an administrative operations manager for a utility protection company where I managed accounting staff, compiled quarterly reports for the board of directors and prepared annual budgets. Additionally, I simplified accounting processes by automating several functions within payroll, invoicing and reporting.

### Community Involvement

Outside of work, I enjoy learning, being passionate about health and wellness, spending time with my family and dancing.
