Greenville, SC 29601

Doug Vincent

Area of Expertise

As Senior Project Manager for LCK, I am responsible for a variety of projects ranging from new construction to renovations and tenant improvements. I bring over 26 years of construction and facility management expertise to each of LCK's clients. This experience combined with my military background allows me to bring a can-do approach to developing solutions to our clients' needs.

As a career construction project manager, I have a broad range of experience that includes commercial and medical office, K-12 and higher education, residential, industrial and commercial properties as well facility management.

I had the opportunity to be the project manager on the first LEED-certified K-12 project in the state of South Carolina.

I have performed projects in Bluffton, Charleston, Greenville and Spartanburg, South Carolina as well as Asheville and Charlotte, North Carolina.

I was LCK's Project Manager for the reconstruction of a manufacturing facility in Seneca, SC which was struck by an F-3 tornado in April 2020.

Business and Educational Background

Prior to joining the LCK team, I spent 20 years in the United States Air Force, retiring with the grade of Master Sergeant. Since then, I have worked as an owner's representative, facility director, commercial subcontractor and general contractor and residential builder.

Community Involvement

I currently volunteer time and resources with Miracle Hill Ministries in the upstate.
