## Jesse Farris

### Area of Expertise

As a Senior Project Manager at LCK, I prioritize building trust with our clients and ensuring a smooth project experience. My years of experience in the construction industry allow me to see projects from a client's perspective, providing immediate benefit and detailed oversight on projects. This industry expertise, paired with a patient and creative problem-solving approach, ensure stability and smart decision making throughout the process. This comprehensive approach extends from project inception to completion, allowing me to effectively manage risks and offer tailored solutions that fit our client's goals and budget.

Building has always been my passion, and having worked from both general contractors and owners, I recognize the value of client-focused service and understanding the owner's viewpoint. Leveraging my building expertise, I am able to proactively mitigate budget, schedule and permitting challenges by bringing valuable insights to the table early on in the project.

### Professional Accomplishments

Prior to joining LCK, I worked as a Corporate Accounts Project Manager and Construction Project Manager for a large construction company and Project Manager for a major commercial real estate firm in the Midwest.

My experience includes overseeing and managing multi-million dollar renovations, expansions, relocations, and ground-up construction projects for a wide range of industries including government, hospitality, education, retail, general commercial and more.

### Business and Educational Background

I earned my Bachelor of Science degree in Construction Engineering from Missouri Western State University in 2007. My experience includes more than 15 years in the construction industry, 12 years in Project Management roles and six years of invaluable experience in the commercial real estate sector.

### Community Involvement

I volunteer with organizations that work towards uplifting the community and aiding local families, schools and veterans.

In my free time I enjoy college football, woodworking, golf and Formula 1 racing.

### Education or Qualifications

Missouri Western State  
University, Bachelor of Science  
in Construction Engineering

### Specializations

Construction Services  
Project Management
