### Education or Qualifications

Michigan Technological  
University, B.S., Civil Engineering

Air Force Institute of  
Technology, M.S., Engineering  
Management

### Specializations

Project Management

### Area of Expertise

As a Project Manager at LCK, I am responsible for managing construction and renovation projects as LCK's representative, leading teams of contractors, architects, engineers and consultants while overseeing budgets and timelines. I leverage extensive commercial construction experience across diverse project types to collaborate effectively with LCK teams and clients.

I thrive on client and team collaboration to deliver successful projects while maximizing client value. I pride myself on vigilant schedule and cost oversight, anticipating potential challenges, and skillfully navigating obstacles as they emerge.

### Professional Accomplishments

I hold 18 months of post-secondary engineering education and Engineer-in-Training (EIT) certification, along with an OSHA 30-hour Construction Safety and Health certification.

### Business and Educational Background

I hold a Bachelor of Science degree in Civil Engineering from Michigan Technological University and a Master of Science in Engineering Management from the Air Force Institute of Technology. My academic background has provided a strong foundation for a career in engineering and project management.

With over 18 years of experience, I have successfully managed projects across diverse construction sectors and delivery methods. Before joining LCK, I spent six years overseeing K-12 school projects in the education sector. Prior to that, I served as a Civil Engineer in the United States Air Force, where I managed projects in various sectors, each presenting its own unique challenges.

### Community Involvement

I recently relocated from Washington to Columbia and I am eager to start building connections within the local community. I enjoy being outdoors, hiking with our dogs and traveling.
