Area of Expertise

As Vice President at LCK, I strengthen our platform, support strategic growth and guide key initiatives. I supervise project execution, mentor staff and manage critical client relationships while remaining actively involved in select, high-impact projects.

With over 30 years of experience spanning both public and private sectors, I bring extensive expertise in planning, engineering, and construction. I am recognized for my ability to convey complex technical concepts clearly, resolve challenges efficiently and lead collaborative teams to successful outcomes.

At LCK, I lead authentically with a process-driven approach managing complex projects for and mentoring professionals to deliver exceptional results to our clients.

Professional Accomplishments

- 2024 Clemson University Construction Science & Management Hall of Fame honoree
- 2023 SC Women in Business Award
- 2023 GSA Women of Influence Award

Business and Educational Background

I hold both a Bachelor of Science in Civil Engineering and Master of Engineering, as well as a Master of Business Administration, from Clemson University.

Over my 20-year tenure at Clemson University, I served as the Director of Project Management for the Planning, Design and Construction

department. I led a team of project managers while remaining directly involved in the execution of complex, high-value projects. As the licensed professional engineer and sustainability professional, I managed a diverse portfolio of capital projects that advanced the university's mission and strategic goals.

My career began in consulting civil engineering, with a specialized focus on water and wastewater improvement projects. My client portfolio included various municipalities, universities and private companies, providing a broad foundation of technical expertise that continues to inform my approach to effective project execution.

Community Involvement

- Founding member of the Women Construction Forum
- Former President of the Clemson Women's Alumni Council
- Mentor for The Clemson Forever FIRST Program
- Deacon for the Fort Hill Presbyterian Church, Clemson, SC
- Speaking engagements & mentoring: Clemson ASCE, Constructors Guild, CU Construction Women, AIA-student chapter, Civil Engineering Hard Hat Ceremony
- Professional Engineer volunteer for Civil Engineering Keystone (formerly Capstone) projects & CSM Capstone project
- Speaking engagements to local elementary and middle schools
